

SAPC- 16368

Copy 2 of 6

7 June 1957

Dear Hank:

Attached is cost information on SP-1913 and SP-1914 in Ed's area.

I don't believe they can be used for anything but information since they are not final statements.

Incidentally, I checked on the spares situation on our contracts and there appears to be no problem this year. Most of the contracts requiring spares are "no year funds", and spares have been definitized on the other contracts.

Yours very truly,

DMK

Dan

June 4, 1957

To: Contracting Officer
Contract SP-1914

Subject: STATEMENT OF COSTS

Pursuant to the Price Revision clause of the contract, we enclose herewith our Statement of Costs incurred to 5 May 1957.

Because of the continued uncertainty of the overall costs, and since a number of development items remain, it is proposed that price revision be deferred until completion of the contract or such other time as may be agreed upon.

Yours,

Hal
